II

TENDER FOR THE SUPPLY OF FUEL FOR THE NORTH AND SOUTH BANKS OF KRISHNARAJASAGARA WORKS.

Notice is hereby given that sealed tenders will be received at the Office of the Superintending Engineer, Krishnarajasagara Works, up to 5th July 1920, for the supply of the fuel as per specification for the North and South Banks of Krishnarajasagara Dam Works. An approximate estimate of the quantity is given below, which is not guaranteed. The supply shall commence from 15th July 1920 and shall continue to 30th June 1921.

2. The conditions may be seen at the Superintending Engineer's Office, Krishnarajasagara Works, on all week days, between the hours of 11 A.M. and 6 P.M.

3. Tenders should be submitted in the printed forms which may be obtained from the Superintending Engineer's Office. The tender should be accompanied by a statement showing rates at which the supply will be made.

4. Each tender must be accompanied by a deposit of Rs. 500 in cash or Government currency notes, as earnest money, and be superscribed "Tender for the supply of fuel for the South Bank or North Bank of Krishnarajasagara Works" in default of which, it is likely to be rejected.

5. The final acceptance of any tender will rest with the Chief Engineer, Cauvery Valley Irrigation, Bangalore, who does not bind himself to accept the lowest or any tender or assign any reason whatever for the rejection of any tender.

6. Within eight days from the acceptance of the tender, the accepted tenderer will be required to execute the usual contract bond; in default of which his tender will be considered as cancelled, and his earnest money forfeited.

7. The name of the successful tenderer will be pasted on the notice board in the Superintending Engineer's Office and intimation given to him in due course. No enquiry regarding the acceptance or rejection of a tender will receive reply.

8. On acceptance of one of the tenders, the earnest money of the rejected tenders will be returned.

9. The quantity to be supplied is as follows:—

North Bank ... ... 2,000 tons

South Bank ... ... 2,000 tons

The supply should commence at 84 tons per month for each bank.

10. Tenders for each bank should be sent separately with the specified earnest money.

SPECIFICATION.

(1) The wood to be *jungle fuel* of the approved variety.

(2) They shall be sawn into billets of the sizes noted here:

Length.		Thickness.	
Maximum.	Minimum.	Maximum.	Minimum.
30"	18"	9"	4½"

(3) The billets over 7" in diameter shall be split to proper sizes at the contractor's cost.

(4) The wood is to be stacked by the contractor in the place approved by the Superintending Engineer or his representative.

(5) The stacks must be rectangular in shape, sides being verticle, straight and the top level. The wood must be laid evenly and closely and the pieces comprising the sides must be laid at right angles to the direction of such sides, as specified above.

(6) The interior of the stacks must be packed as closely as possible, the pieces being regularly laid with their length all in one direction, with no vacant space.

(7) Each stack should measure 30′×5′×5′ or 750 c. ft. which will be considered as equivalent to 10 tons at 75 c. ft. per ton.

(8) The Superintending Engineer or his representative will inspect the wood as it is stacked and shall reject pieces that are hollow, rotton or otherwise unsuitable for work. He will also satisfy himself that the pieces are in accordance with the dimensions specified above and that the stacks are built as required. He shall have power to reject any stack that do not in all respects comply with the terms of the specification.

(9) The wood in the stacking place is to be preserved by the contractor at his own cost until it is stacked, measured and accepted by the Superintending Engineer or his representative in a month after the completion of the stacks.

(10) At the time of measurements, the contractor or his representative should be present and sign the record of measurements in token of acceptance for the preparation of bills.

(11) The wood to be jali, thipyala, devadaru, chigare, hunse, heddaru and other equally hard wood. If the contractor wants to supply any other kind of wood, he should get a few cart-loads as sample and on its acceptance and settlement of quantity and rate supply should commence on written order from the Superintending Engineer or his representative.

(12) The contractor should supply the quantity according to his bond and should he fail to do so in two consecutive months, the Superintending Engineer or his representative can order for collection by a separate agency, at the risk of the contractor or cancel his contract and credit the whole or a part of the reserved amount to Government.

(13) For the proper performance of the contract, a reserve of 5 per cent will be held from the contractor's bill up to Rs. 2,000, which will not be returned till the close of the contract.

(14) The Superintending Engineer or his representative can arrange for collection of fuel available in the Reservoir area by other agency as an additional supply.

III
